

## 2017 Summary of Fees

All Health Training provide all students with an individual Statement of Fees at application. The Statement of Fees includes the following information for students to review prior to confirming their enrolment:

- Fees for the proposed course of study including tuition, resources and/or placement fee (if applicable)
- estimated duration, location and mode of training and assessment
- any practical placement arrangements (if applicable)
- the hourly tuition fees relevant to the student
- the approximate value of the government contribution

PLEASE NOTE - if you are eligible for government funding and your job active provider is paying your fees, they do not get the extra concession/health care card discount. If you are not eligible for government funding (Fee for service) and your job active provider is paying your fees, they pay the Fee for Service rate.
